The NEWS project is already coming to an end. We summarise the results achieved and invite you to read and use our training material:

1. The **Methodology** offers you a practical overview of critical thinking approaches and their concrete implementation with adult learners, both in a general part for adult education and in concrete modules for foreign languages, ICT and media education.
2. The **Manual for Training New Adult Educators** enables experienced trainers and institutions to teach the NEWS method to aspiring new adult educators.

The materials were produced jointly by the project partners and tested in two transnational trainings. Feel free to explore and download the NEWS results free of charge:

At the end of the project, all partner organisations organised events in their countries to present the NEWS method and the produced materials to a broad public in adult education. We invite you to read about it on our Facebook page: <https://www.facebook.com/KA2projectNEWS>

We end a three-year project with the conviction that the information and different methods we have worked out together can be very interesting and useful for trainers in different fields.
